Soft skills

- **Project management**

Managed branding projects at Pyralume, ensuring alignment with guidelines and accessibility standards.

- **Attention to detail**

Demonstrated technical precision while installing fiber networks at Bell and creating user personas with a focus on accessibility at Pyralume.

- **Problem-solving**

Resolved technical issues independently as a Telecommunications Technician at Bell.

- **Communication**

Provided clear, remote guidance to clients as a Technical Advisor at SherWeb.

- **Teamwork**

Collaborated with multidisciplinary teams at Pyralume and worked with classmates on multiple projects, showcased on GitHub.

- **Adaptability**

Transitioned between hands-on technical roles and remote client support seamlessly.

- **Client focus**

Delivered tailored solutions and training to ensure customer satisfaction at SherWeb.

- **Time management**

Managed academic and project deadlines, excelling with a 3.70 GPA and graduating with honors.

Axel Nya
Front-end Web Developer

Recently graduated with honors from the Diploma in Interactive Media Design program at Algonquin College in Canada, I have a strong background in telecommunications and technical roles. With advanced skills in web development, I have contributed to several web development projects and am committed to delivering high-quality interactive solutions.
